Why Intelligrow

Intelligrows co-founding team come from a Mifos development community and are global partner for Mifos end to end services.

Intelligrow has helped many organisation who are microfinance, NBFC, sacco's and fintech from around the world with mifos solution.

Since we are part of the mifosx since from its inception, we understand the problem of these financial institutions.

We assist in implementing mifos with your requirements or operations. We also take customization requests with your needs.
